About Course

This course is designed to help new and growing leaders build strong management skills. You'll learn how to lead teams, solve problems, and make smart decisions. It's perfect for officers, deputy managers, and managers ready to take on more responsibility. You'll explore key business ideas in a simple, hands-on way, helping you grow your confidence and become more effective in your role and organization.

Course Overview

Organizations across every industry are facing complex organizational challenges that require the rapid development of new and agile leaders. More than ever before, emerging leaders must quickly learn and deploy core management skills, develop a broad strategic perspective, take their leadership skills to the next level, and expand their professional and personal networks.

Presented over ten days, this intensive program is designed to help new managers master core business concepts and build key skills in six subject areas, including leadership, strategy, and finance. Participants will gain a cross-functional view through sessions led by instructors specializing in each subject area and through project-based learning.
